

Chemicals under the Toxic Substances Control Act (TSCA)

We, Freedom Electronics Ltd, declare to the best of our knowledge and with assurance attained, that the raw material, substances and products, meet the requirements Under the Toxic Substances Control Act (TSCA), as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act,

Furthermore, we undertake to inform relevant parties should any new or existing raw materials, substances or product do not conform to the above Act.

Compliance at Freedom Electronics Ltd means that:

- Our suppliers are required to comply with the Act for materials purchased by us unless specifically noted as being non applicable, the default position is for all parts to be compliant.
- Customers have adequately specified their assembly/product as being compliant and have correctly specified all parts within their Bill of Materials as compliant.
- Our manufacturing process for specified assemblies ensure compliance at all times.

We also confirm that the products we supply do not contain Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS)
